EDUCATION

KIET Group of Institutions , Ghaziabad, Uttar Pradesh, India	Aug 2024 – Present
B.Tech in Information Technology	
CGPA: 7.66 / 10	
RLPS (CBSE) , Sarnath, Varanasi, Uttar Pradesh, India	Jun 2023
Class XII – PCM (75.8%)	
RLPS (CBSE) , Sarnath, Varanasi, Uttar Pradesh, India	Jun 2021
Class X (91.4%)	

TECHNICAL SKILLS

- **Programming:** Python, C++, Java, SQL
- **Machine Learning:** Deep Learning, Natural Language Processing (NLP), Graph Neural Networks (GNNs), Large Language Models (LLMs), Transformers, AI Agents, LangChain, LangGraph, Retrieval-Augmented Generation (RAG)
- **Data Science:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, PyTorch, Keras
- **MLOps:** Docker (Containerization, API Deployment, Volume Management), AWS (EC2, S3, IAM, VPC)
- **Tools:** Git, GitHub, FastAPI, Streamlit, Anaconda, Google Colab, Kaggle

EXPERIENCE & LEADERSHIP

DSA & Competitive Programming Coordinator	September 2025 – Present
<i>CP-BYTE Technical Club, KIET</i>	
• Taught 50+ students DSA and Competitive Programming; mentored 15+ students in problem-solving and contest preparation.	
Machine Learning Coordinator	Jan 2026 – Present
<i>CP-BYTE Technical Club, KIET</i>	
• Led AI/ML projects; mentored 25+ students in ML fundamentals, model training, and evaluation.	
TCS CodeVita Season 13	2025
<i>Global Coding Competition by TCS</i>	
• Secured Rank 2486 among global participants.	
Community & Social Service Volunteer	Aug 2024 – Present
<i>Astra-Dharni Clan (NGO) & NSS</i>	
• Organized 5+ drives benefiting 100+ individuals .	

PROJECTS

PROXY GPT – AI Browser Automation Agent	Jan 2026
• Engineered an LLM-powered browser automation agent capable of intelligent web navigation, contextual reasoning, and multi-step task execution across dynamic websites.	
• Integrated real-time browser control, workflow orchestration, and automated information retrieval , enabling low-latency interaction for web-based tasks.	
• Designed scalable AI pipelines to support dynamic query handling and adaptive task execution in complex browsing environments.	
PLANT DISEASE DETECTION – Deep Learning Research	Nov 2025
• Developed a deep learning-based crop disease detection system trained on 16K+ agricultural images for automated plant health monitoring and disease classification.	
• Applied image preprocessing, augmentation, and comparative model evaluation to improve prediction accuracy and model robustness across multiple disease categories.	
• Conducted research-driven experimentation using computer vision techniques for scalable AI solutions in smart agriculture.	
MACHINE LEARNING PROJECTS – Predictive Analytics Suite	Sep 2025
• Built 10+ end-to-end Machine Learning projects covering classification, regression, clustering, and predictive analytics using Python, Scikit-learn, Pandas, and NumPy.	
• Applied EDA, feature engineering, preprocessing, and evaluation metrics on real-world datasets to improve model performance and interpretability.	
• Implemented model optimization and validation techniques, strengthening practical understanding of the complete ML lifecycle .	
DATA STRUCTURES, ALGORITHMS & COMPETITIVE PROGRAMMING	
• Solved 1300+ coding problems across LeetCode, Codeforces, CodeChef, GeeksforGeeks, and AtCoder , demonstrating strong problem-solving and algorithmic thinking.	
• Achieved peak ratings of 1697 on LeetCode, 1622 (3) on CodeChef, and 1326 on Codeforces (Pupil) ; participated in 110+ coding contests across multiple competitive programming platforms.	
• Maintained 490+ active coding days with hands-on experience in Dynamic Programming, Graphs, Trees, Greedy Algorithms, Binary Search, Recursion, STL, and Advanced Data Structures .
